 1-double cabin forward port hull
 1-single cabin rear starboard hull
 1-head located in rear port hull or additional head in place of rear cabin
 Galley located in starboard hull

See layout in photos

Remarks :

The Catalac 10M was introduced in 1984. This boat was designed with cruising in mind as it features two large forward cabins, plus good aft single cabin. The Catalac 10M is a solidly built boat powered by twin Yanmar diesel sail drives. These boats have a very popular layout, and sell very quickly if they appear on the market. Sailing this boat long distances single handed, won't be an ordeal. If you are in the market for a Prout Catamaran the Catalac 10 will really impress with improved headroom and many features such as large well made hatches and side windows

Extensively refitted & fully maintained by the current owners (one a trained boat builder) since 2010.

Extensive fine wood work interior

Many spares and back up parts

Considered one if the best cruising catamarans built.

UK registered and VAT paid

Check out the Catalac site for more details on these [yachtshttp://www.catamaransite.com/index.html](http://www.catamaransite.com/index.html)
