There is also a diesel oven, sink with fresh and salt water tab, microwave with grill, rice cooker and coffee machine.

## Remarks :

The name "Atoa" is derived from "Arctic to Antarctic" or "America to Australia", indicating that this yacht is a real world girdler and is designed for unlimited cruising. To permit high latitude sailing her aluminium hull is reinforced at the waterline, and her shallow draft allows her to sail equatorial rivers like the Amazon and anchor in the lagoons of the Pacific Ocean. Built in Holland to the very high standards of the Dutch yacht building industry. Engine, bow thruster generator, water maker, SSB and all other installations are impeccably installed. She is loaded with gear and full of clever ideas, showing that the designers and project manager are experienced yachtsmen. This yacht is brand new and ready to go to sea. A custom built yacht you can buy of the shelf without the usual two year waiting. The specifications list in this brochure is extensive but not complete. Lots of photographs available. Contact us for more details.
