Mechanical and Rigging

Construction:

Built by Northshore Yachts in 1990

Designed by Tony Taylor

Hull & deck mouldings to Lloyds approved specifications

GRP hull, deck & superstructure

Hull topsides are foam sandwich construction

Solid GRP construction underwater profile (underwater gel coat was moulded with copper content during original layup)

Underwater profile was stripped back in 2009, re-primed & antifouled

The boat has been stored ashore for a minimum of 6 months each season during current ownership

Whitlock Cobra R wheel steering (removed & refurbished with new bearings in 2008)

Encapsulated long fin lead keel, with skeg (the leading edge is designed to be significantly robust to provide a sacrificial function in the event of a collision)

All new hull anodes & extensive selection of spares

Hull No 88/90

VAT Paid

Mechanics:

Volvo Penta D2-40, 40hp diesel engine (new in 2014)

200 engine hours

Single lever morse control

Engine serviced & winterised each year

Shaft driven (new shaft P-bracket, stern gland gaiter & cutlass bearing 2014)

Double stainless steel sink, with hot and cold pressurised water

Manually pumped cold water via filter

Ample cupboard, shelf & drawer storage

Aft Cabin

Good sized double cabin

Wardrobe with drawer and cupboard underneath

Wall mounted hand bearing compass

Remarks :

The Vancouver 36 is in superb condition, Vancouver's are well known as fantastic long distance robust sailing yachts & this example stands up to the reputation very well. She has been updated and maintained with no expense spared and to the highest standard. Here is a list of some of the most important upgrades; she had a new Volvo Penta DS-40-F diesel engine in 2014, new standing & running rigging in 2008. A new mainsail & Yankee in 2013, complete instrument update in 2013 & 2017, the list goes on & on.

Her condition throughout is superb the finish of the boat with regards to, gel coat, woodwork & upholstery is exceptionally high.

The current owner purchased her at the beginning of last year and made some personal changes to the electronics and rigging to bring her up to his standard. Due to a move abroad for work begrudgingly the current owner feels it is best to put her on the market, to ensure a new owner maintains her high standard and they can enjoy her every bit as much as he has for this short period of ownership.

The current owner cruised her for extended periods during the summer of 2017 with most time spent around the Southwest coast and trips to France. The Vancouver will battle all conditions at ease providing a comfortable & robust passage every time she sets off of the jetty.

If you are searching for an all-weather solidly built cruiser then this one should be top of the list, there has been no expense spared equipping this yacht, so there is nothing to do apart from wave goodbye.

Owners Comments:

It is with a heavy heart that I am selling Voyager. She is a fantastic cruising yacht, handles impeccably in a seaway, and yet her rig has been updated for both performance and ease of handling, and her electronics were refitted and upgraded last year. I have never seen a yacht of this age so well maintained and got a similar comment from the Surveyor.
