Remarks :

Rare opportunity to purchase a Neptune 33 Motor Sailor. This long keeled, heavy displacement sailing yacht is both spacious and functional. Constructed in heavy lay up GRP by Tyler Boats to a Alan Buchanan design and finished by Shuttlewood and Sons in 1972. Vessel was ashore for the winter 2015/16 and has been antifouled and new anodes placed ready for the season.

If you are looking for a solid, heavy displacement passage maker to deal with the unexpected then look no further. Deep safe cockpit, plentiful stowage, well maintained and reliable engine, decent set of sails including cruising chute and snuffer and 7 berth accommodation.

The hull and superstructure are in great shape. The windows and port lights offer clear vision and the half doghouse provides excellent shelter when on passage. Deck stepped spars with recently replaced standing rigging and roller furling gear. Interior is warm and welcoming with comfortable easy clean fabrics. Good sized galley with oven, heads with sea toilet and decent sized chart table offer everything you need for extensive cruising.
