2 Heads compartments one with Blakes lavac marine toilet one with Portaloo.
There is a separate shower cubicle with sink.

Remarks :

This Otarie Class steel motor yacht, ZEEMEEUW is a remarkable boat that would be better described as a small ship. The engineering is first class throughout and the quality of the zinc coated steel is as good as it gets. The previous owner undertook a major extension by building a wheelhouse onto the existing deck where the flybridge and upper helm position

originally stood, and this creates the most extraordinary amount of enjoyable living space with a great view.

This boat is ready and capable of going great distances at the drop of a hat, or, ready and capable of offering wonderful space and accommodation as a liveaboard home. We anticipate that her next owner is likely to have a great appreciation of high quality craftsmanship and engineering.
