Further information about the Fastnet 34;

The two French designers Michel Dufour and Jean-Marie Finot had a major influence on yacht design through the 1970s, with then revolutionary designs such as Finot's Ecume De Mer and Dufour's Arpege - lightweight cruiser-racers that could both win races and cruise successfully.

Finot went on to design a string of other yachts including the Fastnet 34, before being appointed designer of ranges of production yachts for Jeanneau, Beneteau and Comar (Comet) in Italy. His design office is now Groupe Finot which continues to design both production yachts and high-tech racing machines.
