PROVISIONAL SPECIFICATION (to be checked & further details, images, etc added)

Cornish Shrimper sailing yacht for sale. 'Pyla' is a very nice example which boasts a well maintained Yanmar 1GM10 diesel inboard engine (last serviced 2015), new engine mounts, new and unused mainsail and jib, new mainsail cover and a road trailer. Inventory includes fenders, warps and anchor.

Afloat in Titchmarsh Marina, not far from our sales office. Contact us today to arrange a viewing by prior appointment.

Sail Area

Working Sail Area : 194.00 sq ft

Manufacturer Provided Description

As with all the established favourites in the Cornish Crabbers range, the Cornish Shrimper combines the best of modern design and construction techniques with the sheer practicality of traditional gaff rig to ensure really outstanding ability under sail. Features such as shoal draft, excellent accommodation for her size, trailability and effective auxiliary power from either a 4 or 5 hp outboard motor extend her versatility. And for those owners who wish in addition the considerable and unobtrusive power of an inboard engine - available at the touch of a button - the Shrimper Inboard version provides the answer. Ideal for negotiating long tidal channels to open water, for fishing, for driving through a tough head sea or for just pottering in the evening calm, the Shrimper Inboard has her place. - Sparkling performance under sail or power. - Room for four or more in the cockpit. - Comfortable

berths for two in the cabin. - Optional cockpit tent provides for two further berths and extends covered space. - Easily trailed by the larger family car. Extend your cruising grounds. Winter at home. - There's a choice of road trailers - even a launching trolley - and also a combination unit where road wheels and brakes need never be immersed. - Can be rigged (including mast raised), launched, sailed and retrieved singlehanded. Halyards and controls are led back to the cockpit. - Shoal draft with retractable centrekeel and rudder plate allows shallow water sailing in safety. She dries out happily day after day if required. - A roller reefing jib is part of the standard equipment. - She sails on mainsail or jib alone. - Choice of outboard or inboard auxiliary power. - Recommended outboard power is only 4 to 5 hp which gives economy in fuel costs with engines that are light to lift and stow. - Secure locker for outboard motor when stowed. - Deep foredeck well for crew safety when anchoring and for stowage of ground tackle. - Tough construction with foam buoyancy firmly retained by bulkheads.
