Upgrades and recent history

Kuuma Kissa has been well-cared for over the years and this is reflected in the general cleanliness and well-maintained appearance of the boat.

As systems have shown signs of age they have been replaced or updated. Such work has involved a new 12v system in 2010, new hatches in 2011, a resprayed hull in 2013, re-wired shore power and new hot water system in 2016. The coachhouse roof has also been repainted this year using Toplac.

To help preserve the varnish and paintwork in good condition there are screen and hatch covers for all year use and tailored winter covers.
